Subject: RE: 649.4701- rev C

Linda,
Here's a quick list of what I will need in order to make my kit to rev C.

- 649.5111 need some at rev A1 (got some in quarantine) – are these good to use? ✓ Rev A QRTN x 4 5054882
- 649.5112 need some at rev A1 (got some in quarantine) – are these good to use? Rev A - QRTN x 4 5054897
- ✓ 649.4811 need some at rev A – WJ>OS – approx. 3wks Prev A - need to make 5 stk. CCK003 - 5141584 BL
- 649.4816 need some at rev A – WJ>OS – approx. 3wks 4 stk QRTN - Rev A 5141516
- ✓ 649.5214 need some at rev A – Machining>OS- approx. 4-5wks aro 4 stk QRTN - Rev A - 5130875
- ✓ 649.5010 need some at rev C1 – Machining>OS- approx. 4-5wks aro - need to make
- ✓ 649.4902 need some at rev A – do the 649.5301 and 649.8301 need to be at an older rev? see attached

Also for me to complete the kit from RA173 we will need to add, remove some of the hardware to make it as per rev C.

Sorry for the delay... this is a big mess and I don't what to rush and ship something that's not good.

Pat,

Can you provide me a timeline to when you will have an answer to Linda?
We've lost a whole week on this order.

Hi Linda

Marc elaborated a bit last night for the reason behind the revs.

- Agusta "older style" A/C used to have rivnuts where the CCK installed, so our older style CCK works with that configuration. Then Agusta changed the design to screws, and we updated our CCK to fit with the newer configuration
- All A/C's at S/N 14940 and earlier are the older style rivnut and all A/C's S/N 14941 and subsequent are the newer style.
- In my case, my customer has the older A/C so this is why we have asked for the older style CCK

Just don't understand why it would still be available at an old revision??

Hi Pat

I would like just like to mention that I currently have an order for this cable cutter kit.

If the internal warning & information provided by customer support is incorrect, that's a whole different story, but please keep in mind there is a customer actively waiting on this.

Is there anything I can help with the expedite this?

Caitlin,

I'm still looking into this one...

Yes I do have one kit in my office from RA173 but its incomplete, also if you need a previous rev I will need a sign off by engineering, and that only if we are able to manufacture the old part.

I will get back to you as soon as possible
